

Songs & Programs Ratings

All of our songs and videos are radio & TV edited, so you should never hear anything you wouldn't hear on network TV or local radio. However, we also understand that this doesn't always go far enough when you have younger audiences. That's why we also rate our content appropriately for various age groups.

Family

Family songs are squeaky clean and don't contain any adult language or lyrics with adult situations. It doesn't contain any references to or depictions of smoking, drinking, violence, sexuality, or drug use.

13+

The 13+ rating is given to songs that may include references to and depictions of smoking and drinking, mild violence (nothing that shows blood or severe bodily harm), and may include depictions of "beach appropriate" outfits and some slightly adult situations (kissing, for example), but will not include any drug use/drug references.

18+

The 18+ rating is given to songs that include references to and depictions of anything in 13+, as well as situations & visuals that we would not include in 13+, such as "skimpy" outfits or closeups of certain body parts, lyrics that are more sexually charged, violence including blood and death, and drug use/drug references.

If you ever have any questions about the rating of any of our songs, please email our Playlist Team at playlist@787networks.com, call us at **1-866-684-8324 x 1**, or live chat with us via the player's chat feature in the bottom right corner of your player.
